INDEPENDENT AUDITORS' REPORT

Board of Education
Homer Central School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Homer Central School District (the School District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2019, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison, Schedule of Changes in the School District's Total OPEB Liability and Related Ratios, the Schedules of School District Contributions - NYSLRS and NYSTRS Pension Plans, and the Schedules of the School District's Proportionate Share of the Net Pension Asset/Liability, and related notes on pages 4-41 and 47-56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Change from Adopted Budget to Final Budget and the Real Property Tax Limit, Schedule of Project Expenditures - Capital Projects Fund, and Schedule of Net Investment in Capital Assets (supplementary information) on pages 57-59 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the financial statements.

The supplementary information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2019 on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2019

The following is a discussion and analysis of Homer Central School District's (the School District) financial performance for the fiscal year ended June 30, 2019. This section is a summary of the School District's financial activities based on currently known facts, decisions or conditions. It is also based on both the District-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. The Management's Discussion and Analysis (MD&A) section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The School District recognizes its total other postemployment benefits (OPEB) liability, as well as deferred outflows and deferred inflows of resources related to the OPEB plan in accordance with the parameters of GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." Current year recognition resulted in an increase of District-wide expenses of \$1,024,230, compared to an increase of \$2,050,275 in 2018.
- The School District ended the year with a total net deficit of \$6,898,632, a decrease in net deficit of \$378,719 from the prior year. Year-end net position was composed of \$10,914,300 in restricted, \$27,552,271 in net investment in capital assets, and \$45,365,203 in unrestricted net deficit. The unrestricted net deficit increased \$853,716 compared to the prior year. The unrestricted net deficit at June 30, 2019 is primarily attributable to recognition of the net accumulated OPEB liability of \$45,804,821.
- Revenues exceeded expenses by \$378,719 in 2019, compared to expenses exceeding revenues by \$2,574,484 in 2018.
- The School District had \$27,689,928 in outstanding debt at year end, a decrease of \$3,086,934 from the prior year; primarily due to principal payments on outstanding long-term debt.
- Capital asset additions during 2019 amounted to \$1,741,170 for the purchase of equipment and construction in progress expenditures. Depreciation expense was \$2,222,535 for the current year.
- General Fund budgeted expenditures, including carry-over encumbrances, and other financing uses, were underspent by \$464,504. General Fund revenues and other financing sources were less than budgeted amounts by \$423,975.
- Total General Fund balance, including reserves, was \$7,881,888 at June 30, 2019. Unassigned fund balance amounted to \$1,364,808 which was subject to and below the maximum limit (4% of 2019-2020 appropriations) permitted under New York State Real Property Tax Law.

- Known changes in state aid - Estimating state aid has become a nearly impossible task for school districts during the last several years. The School District had an increase in state aid for 2018-2019. It is difficult for the state to support public education in the wake of fiscal distress in the economy and natural disasters throughout the nation. Increases in retirement and health insurance costs continue to stress our ability to provide educational programming for our children.

The School District is a labor-intensive enterprise, and the cost of benefits continues to out-pace the inflation rate. State aid continues to lag behind School District expenses.

Textbook, computer software, and library material aid have remained stagnant for many years. As program requirements for students increase in the classroom and libraries, the state has reneged on the level of funding for textbooks and library materials identified several years ago. The state has encouraged school districts to share services in an effort to reduce costs. The School District participates in the Central Business Office through OCM BOCES for its business office functions. The services include the positions of School District Treasurer, Payroll Clerk, and Accounts Payable Clerk. The School District also shares its Transportation Supervisor with a nearby district.

The implementation of rules commonly referred to as the NYS Tax Cap Law during 2011-2012 introduced a level of complication to the School District's tax levy process as well as restrictions on its ability to raise revenue to support educational programs. The School District's residents have continued to be supportive through the difficult times.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: MD&A (this section), the basic financial statements and supplementary information, both required and not required. The basic financial statements include two kinds of statements that present different views of the School District.

- The first two statements are District-wide financial statements that provide both short-term and long-term information about the School District's overall financial status.
- The remaining statements are Governmental Fund financial statements that focus on individual parts of the School District, reporting the School District's operations in greater detail than the District-wide financial statements. The Governmental Fund financial statements concentrate on the School District's most significant funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School District's budget for the year, a Schedule of School District Contributions - NYSLRS and NYSTRS Pension Plans, the School District's Proportionate Share of the Net Pension Asset/Liability, and Changes in the School District's Total OPEB Liability and Related Ratios.

HOMER CENTRAL SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2019

District-wide Financial Statements

The District-wide financial statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies.

The Statement of Net Position includes all of the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-wide financial statements report the School District's net position and how they have changed. Net position - the difference between the School District's assets, deferred outflows and inflows of financial resources and liabilities - is one way to measure the School District's financial health or position. Over time, increases or decreases in the School District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

To assess the School District's overall health, one needs to consider additional nonfinancial factors such as changes in the School District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the School District's activities are shown as Governmental Activities. Most of the School District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.

Governmental Fund Financial Statements

The Governmental Fund financial statements provide more detailed information about the School District's funds, focusing on its most significant or "Major" Funds - not the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs. The School District has two kinds of funds:

- **Governmental Funds:** Most of the School District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. Because this information does not encompass the additional long-term focus of the District-wide financial statements, additional information following the Governmental Funds statements explains the relationship (or differences) between them.
- **Fiduciary Funds:** The School District is the trustee, or fiduciary, for assets that belong to others, such as the Scholarship Fund and the Student Activities Funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2019

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

The School District's combined net position for the fiscal year ended June 30, 2019 increased by \$378,719. Our analysis below focuses on the net position (*Figure 1*) and changes in net position (*Figure 2*) of the School District's Governmental Activities.

	<i>2018</i>	<i>2019</i>	<i>2018 - 2019</i>
<i>Current Assets</i>	\$ 5,967,528	\$ 6,426,458	\$ 458,930
<i>Noncurrent Assets</i>	12,257,007	11,910,305	(346,702)

<i>Total Liabilities</i>	86,744,663	79,194,806	(7,549,857)
<i>Pensions</i>	3,124,331	2,400,136	(724,195)
<i>OPEB</i>	2,254,937	8,560,429	6,305,492
<i>Total Deferred Inflows of Resources</i>	5,379,268	10,960,565	5,581,297
<i>Net Investment in Capital Assets</i>	25,095,018	27,552,271	2,457,253
<i>Restricted</i>	12,139,118	10,914,300	(1,224,818)
<i>Unrestricted</i>	(44,511,487)	(45,365,203)	(853,716)
<i>Total Net (Deficit)</i>	\$ (7,277,351)	\$ (6,898,632)	\$ 378,719

The increase in current assets is primarily a result of an increase in the current portion of restricted cash available for capital projects. The decrease in noncurrent assets is a result of a decrease in the non-current portion of restricted cash. The decrease in net capital assets stems from depreciation expense exceeding capital asset additions in 2019.

Current liabilities increased primarily due to the addition of a short-term bond anticipation note and larger amounts due to TRS in 2019. Decreases in noncurrent liabilities are in large part due to the reduction of the School District's other postemployment benefits liability and long-term bonds payable.

HOMER CENTRAL SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2019

The changes in the deferred inflows of resources - pensions and the deferred outflows of resources - pensions, are related to changes in the actuarially determined proportionate share of the School District's net pension asset/liability and related deferred outflows and inflows of resources for the pension plans recognized under GASB Statement No. 68.

Additional changes in noncurrent liabilities, and deferred inflows of resources - other postemployment benefits, are due to actuarially determined changes in the future costs of plan benefits recognized under GASB Statement No. 75.

Deferred outflows - deferred charges on defeased debt decreased based on the regular amortization of deferred charges.

Net investment in capital assets increased due to current year capital asset additions and reductions in bonds payable in excess of depreciation expense. Restricted resources decreased primarily based on decreases in the amount restricted for capital projects.

Our analysis in *Figure 2* considers the operations of the School District's activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2019

Total revenues for the School District's governmental activities increased \$1,312,527, or 3.1%, while total expenses decreased \$1,640,676, or 3.7%. The increase in revenues is primarily due to a gain on the sale of equipment and increases in state sources. The decrease in total expenses is primarily due to decreases in transportation expenses, interest paid on bonds during the year, and reductions in OPEB expense compared to 2018.

Figures 3 and 4 show the sources of revenue for 2019 and 2018.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

Figure 7 shows the changes in fund balance for the year for the School District's funds. As the School District completed the year, its Governmental Funds, as presented in the Balance Sheet, reported a combined fund balance of \$13,191,037; compared to last year's balance of \$14,728,088. The General Fund reported an unassigned fund balance of \$1,364,808 which is below 4% of next year's budget, the maximum allowed by New York State Law. Capital Fund balance decreased based on increased capital outlay in 2019.

GENERAL FUND BUDGETARY HIGHLIGHTS

Transfers made at year-end to balance the budget are caused by unforeseeable under-budgeting in a given code. When transfers into a code are necessary for three consecutive years, the situation is addressed in the following year's budget development process.

After considering these adjustments, actual charges to appropriations (expenditures) were below final budget amounts by \$464,504, including carry-over encumbrances.

Figure 8 summarizes the original and final budgets, the actual expenditures (including encumbrances) and variances for the year ended June 30, 2019.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of June 30, 2019, the School District had invested in a broad range of capital assets. Net capital assets decreased \$481,365, primarily due to depreciation expense exceeding capital outlay. Capital assets, net of accumulated depreciation of \$28,938,501, were \$54,768,640 at year end. Depreciation expense amounted to \$2,222,535 for the current year.

Transportation and Instructional Equipment	158,931
Less Depreciation Expense	<u>(2,222,535)</u>
Net Decrease in Capital Assets	<u>\$ (481,365)</u>

Debt Administration

Debt, both short and long-term, considered a liability of governmental activities, decreased by \$3,086,934 in 2019, as shown in *Figure 10*. The decrease is related to regular principal payments on long term debt in accordance with bond amortization schedules. Total indebtedness represented 29.09% of the constitutional debt limit, exclusive of building aid estimates.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2019

FACTORS BEARING ON THE SCHOOL DISTRICT'S FUTURE

Priorities addressed in year five of Homer Central School District's Strategic Management Plan will play a significant role in determining the School District's financial future.

Energy Performance Project

The Homer Central School District is in the process of working with C&S Companies to perform an initial audit to determine the scope of a potential Energy Performance Project. The School District Facilities Committee will work with the School District Finance Committee in determining the feasibility of launching such a project. Project commencement would potentially begin in the Fall of 2020.

Capital Outlay Projects

In 2018-2019, the School District used project money to focus on the physical interior improvements at the Homer Bus Garage. For the 2019-2020 school year, the School District will focus on energy performance measures at the Intermediate/Junior High School via the Capital Outlay Project. Capital Outlay Projects are 100% aidable through NYS Education Funding.

Financial Management

The School District maintains an AA- rating from Standard and Poor's.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the Homer Central School District's citizens, taxpayers, customers, investors, and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Homer Central School District, at P.O. Box 500, Homer, New York.

RECONCILIATION OF GOVERNMENTAL FUNDS TO THE STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances - Total Governmental Funds **\$ (1,537,051)**

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental Funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which exceeded depreciation expense exceeded capital outlay.

Capital Asset Additions	\$ 1,741,170	
Depreciation Expense	<u>(2,222,535)</u>	(481,365)

Repayment of installment leases is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position. During 2019, the School District disposed of the underlying assets associated with the lease and was not required to make the final payment.

Installment Lease		317,083
-------------------	--	---------

Changes in the School District's proportionate share of net pension assets/liabilities have no effect on current financial resources and therefore are not reported in the Governmental Funds. In addition, changes in the School District's deferred outflows and deferred inflows related to pensions do not effect current financial resources and are also not reported in the Governmental Funds.

ERS	\$ (30,520)	
TRS	<u>266,578</u>	236,058

Bond proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Principal Payments		3,165,000
--------------------	--	-----------

Long-term obligations, such as those associated with compensated absences, are reported in the Statement of Net Position. Therefore expenses which result in an (increase) or decrease in these long-term obligations are not reflected in the Governmental Fund financial statements. This is the change in the amount that is reported in the Statement of Activities. In addition, changes in the School District's deferred outflows and deferred inflows of resources related to other postemployment benefits do not affect current financial resources and, therefore, are not reported in the Governmental Funds.

HOMER CENTRAL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Note 1 **Summary of Significant Accounting Policies**

The accompanying financial statements of the Homer Central School District (the School District) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) for governments, as prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

Essentially, the primary function of the School District is to provide education for pupils. Services such as transportation of pupils, administration, finance and plant maintenance support the primary function.

The School District is governed by the laws of New York State. The School District is an independent entity governed by an elected Board of Education (Board) consisting of 9 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the School District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The financial reporting entity consists of the following, as defined by Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," as amended.

- The primary government, which is the Homer Central School District;
- Organizations for which the primary government is financially accountable, and;
- Other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's basic financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School District. The School District is not a component unit of another reporting entity.

The decision to include a potential component unit in the School District's reporting entity is based on several criteria including legal standing, fiscal dependency and financial accountability. Based on the application of these criteria, the Extraclassroom Activity Funds are included in the School District's reporting entity.

The Extraclassroom Activity Funds of the Homer Central School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be obtained from the School District's office, located at 80 S. West Street, Homer, New York 13077.

Joint Venture

The Homer Central School District is one of 23 component school districts in the Onondaga-Cortland-Madison Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of School Districts in a geographic area that share planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§ 1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, §1950(4)(b)(7). In addition, component School Districts pay tuition or a service fee for programs in which their students participate.

Separate financial statements of Onondaga-Cortland-Madison BOCES may be obtained by contacting the Business Office, Onondaga-Cortland Madison BOCES, 110 Elwood Davis Road, Liverpool, NY 13088.

Basis of Presentation - District-wide Financial Statements

The Statement of Net Position and the Statement of Activities present financial information about the School District's Governmental Activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental Activities generally are financed through taxes, state aid, intergovernmental revenues and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Net Position presents the financial position of the School District at fiscal year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's Governmental Activities. Direct expenses are those specifically associated with and clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

Governmental Fund Financial Statements

The Governmental Fund financial statements provide information about the School District's funds, including Fiduciary Funds. Separate statements for each fund category (Governmental and Fiduciary) are presented. The emphasis of Governmental Fund financial statements is on major Governmental Funds, each displayed in a separate column.

The School District reports the following Major Governmental Funds:

- **General Fund:** This is the School District's primary operating fund. It accounts for all financial transactions not required to be accounted for in another fund.
- **Special Revenue Funds:** These funds account for proceeds of specific revenue sources (other than capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds include the following:
 - **Special Aid Fund:** Used to account for proceeds received from state and federal grants that are restricted for special educational programs.
 - **School Lunch Fund:** Used to account for child nutrition activities whose funds are restricted as to use.
- **Capital Projects Fund:** Accounts for the financial resources used for the renovation of the School District's educational complex.
- **Debt Service Fund:** Accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of Governmental Activities.

Fiduciary activities are those in which the School District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the School District and are not available to be used.

The School District reports the following Fiduciary Funds:

- **Private-Purpose Trust Fund:** Accounts for Scholarship Funds awarded to individual students. These activities, and those of the Agency Funds described below, are not included in the District-wide financial statements because their resources do not belong to the School District and are not available to be used.
- **Agency Funds:** Strictly custodial in nature and do not involve measurement of results of operations. Assets are held by the School District as agent for various student groups or Extraclassroom Activity Funds and for payroll or employee withholding.

Measurement Focus and Basis of Accounting

The District-wide and Fiduciary Fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the School District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is apportioned by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the Governmental Funds to be available if the revenues are collected within one year after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in Governmental Funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Cash and Investments

The School District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the School District's investment policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and school districts. Investments are stated at fair value.

Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided, as it is believed that such allowance would not be material. All receivables are expected to be collected within the subsequent fiscal year.

Due To/From Other Funds

Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year end is provided subsequently in these notes.

Inventories and Prepaid Items

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value, which approximates fair value. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase and are considered immaterial in amount. Prepaid items represent payments made by the School District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and Governmental Fund financial statements. These items are reported as assets on the Statement of Net Position or Balance Sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A portion of fund balance equal to inventories and prepaid amounts is reported as nonspendable, as these assets are not in spendable form in the current period.

Capital Assets

Capital assets are reported at actual cost for acquisitions subsequent to the adoption of GASB Statement No. 34. For assets acquired prior to the adoption of GASB Statement No. 34, estimated historical costs, based on appraisal and research of the School District's accounting records, were used. Donated assets are reported at acquisition value at the time received.

The School District depreciates capital assets using the straight-line method. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the District-wide financial statements are as follows:

	Capitalization Threshold	Estimated Useful Life
Buildings	\$ 50,000	50 Years
Building Improvements	50,000	20-50 Years
Site Improvements	25,000	20 Years
Furniture and Equipment	5,000	5-15 Years

Vested Employee Benefits - Compensated Absences

Compensated absences consist of unpaid accumulated annual sick and vacation leave.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Sick leave use is based on a last-in, first-out (LIFO) basis. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

School District employees are granted vacation time in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement No. 16, "Accounting for Compensated Absences," the liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the Governmental Fund financial statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

Other Postemployment Benefits

School District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the School District provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the School District's employees may become eligible for these benefits if they reach normal retirement age while working for the School District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the School District and the retired employee. The School District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the General Fund, in the year paid.

The School District follows GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." The School District's liability for other postemployment benefits has been recorded in the Statement of Net Position, in accordance with the statement. See Note 11 for additional information.

Unearned and Unavailable Revenues

Unearned revenues arise when resources are received by the School District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when the School District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recorded.

Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, it is the School District's policy to apply restricted funds before unrestricted funds, unless otherwise prohibited by legal requirements.

Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgements, other postemployment benefits payable, and compensated absences that will be paid from governmental funds, are reported as a liability in the governmental funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the School District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Equity Classifications - District-wide Financial Statements

Equity is classified as net position and displayed in three components:

- Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted - Consists of resources with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or 2) law through constitutional provisions or enabling legislation.
- Unrestricted - Consists of all other resources that do not meet the definition of "restricted" or "net investment in capital assets."

Equity Classifications - Governmental Fund Financial Statements

Constraints are broken into five classifications: nonspendable, restricted, committed, assigned, and unassigned. These classifications serve to inform readers of the financial statements of the extent to which the School District is bound to honor any constraints on specific purposes for which resources in a fund can be spent.

- Nonspendable - Consists of assets inherently nonspendable in the current period either because of their form or because they must be maintained intact; including prepaid items, inventories, long-term portions of loans receivable, financial assets held for resale and endowments principal.
- Restricted - Consists of amounts subject to legal purpose restrictions imposed by creditors, grantors, contributors or laws and regulations of other School Districts and enforced externally; or through constitutional provisions or enabling legislation. Most of the School District's legally adopted reserves are reported here.
- Committed - Consists of amounts subject to a purpose constraint imposed by formal action of the School District's highest level of decision-making authority to the end of the fiscal year and requires the same level of formal action to remove said constraint.
- Assigned - Consists of amounts subject to a purpose constraint representing an intended use established by the School District's highest level of decision-making authority, or their designated body or official. The purpose of the assignment must be narrower than the purpose of the General Fund. In funds other than the General Fund, assigned fund balance represents the residual amount of fund balance.
- Unassigned - Represents the residual classification of the School District's General Fund and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should only be used to report a deficit balance resulting from overspending amounts restricted, committed or assigned for specific purposes.

Real Property Tax Law §1318 limits the amount of unexpended surplus funds a school district can retain in the General Fund to no more than 4% of the next year's budgetary appropriations. Funds properly retained under other sections of law (i.e., reserve funds established pursuant to Education Law or General Municipal Law (GML)) are excluded from the 4% limitation. The 4% limitation is applied to unrestricted fund balance (i.e., the total of the committed, assigned, and unassigned classifications), minus appropriated fund balance, amounts reserved for insurance recovery, amounts reserved for tax reduction and encumbrances included in committed and assigned fund balance.

The Board of Education of the School District has not adopted any resolutions to commit fund balance. By resolution, the Board of Education is authorized to assign fund balance. The School District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance and unassigned fund balance.

Legally Adopted Reserves

Fund balance reserves are created to satisfy legal restrictions, plan for future expenditures or relate to resources not available for general use or appropriation. These reserve funds are established through Board action or voter approval, and a separate identity must be maintained for each reserve. Earnings on invested resources become part of the respective reserve funds; however, separate bank accounts are not necessary for each reserve fund. Reserves currently in use by the School District include the following:

- Capital Reserve (Education Law §3651) - Used to pay the cost of any object or purpose for which bonds may be issued. The creation of a Capital Reserve Fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund.
- Employee Benefit Accrued Liability Reserve (GML §6-p) - Used to reserve funds for the payment of employee benefits due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the General Fund.
- Retirement Contribution Reserve (GML §6-r) - Used to finance retirement contributions payable to the NY State and Local Employees' Retirement System. This reserve may be established without voter approval and funded with budgetary appropriations, revenues not required by law to be paid into other funds or accounts, transfers from other Reserve Funds as permitted by law and other such funds as the school board may legally appropriate. Funds from this reserve may be expended without voter approval. This reserve is accounted for in the General Fund.
- Tax Certiorari Reserve (Education Law §3651.1-a) - Used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies. This reserve is accounted for in the General Fund.

Legally Adopted Reserves - Continued

- Workers' Compensation Reserve (GML Section 6-j) - Used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses for administering this self-insurance program. The reserve may be established by board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within 60 days after the end of any fiscal year, excess amounts may either be transferred to another reserve or applied to the appropriations of the succeeding fiscal year's budget. The reserve is accounted for in the General Fund.
- Unemployment Insurance Reserve (GML Section 6-m) - Used to pay the cost of reimbursement of the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within 60 days after the end of any fiscal year, excess amounts may either be transferred to another reserve or applied to the appropriations of the succeeding fiscal year's budget. If the School District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to indemnify pending claims may be transferred to any other Reserve Fund. This reserve is accounted for in the General Fund.
- Mandatory Reserve for Debt Service - Established upon sale of School District property that was financed by obligations, which remain outstanding at time of sale, for the purpose of retiring outstanding obligations. The funding of the reserve is from the proceeds of the sale of School District property or capital improvement. This reserve is accounted for in the Debt Service Fund.

Property Taxes - Calendar

Real property taxes are levied annually by the Board of Education no later than September 1. For the year then ended June 30, 2019, the tax lien was issued on August 14, 2018. Taxes were collected during the period September 4, to October 31, 2018.

Property Taxes - Enforcement

Uncollected real property taxes are subsequently enforced by the counties of Cayuga, Onondaga, Cortland, and Tompkins. An amount representing uncollected real property taxes transmitted to the counties for enforcement is paid by the counties to the School District no later than the following April 1.

Interfund Transfers

The operations of the School District give rise to certain transactions between funds, including transfers, to provide services and construct assets. The amounts reported on the Statement of Revenues, Expenditures and Changes in Fund Balance-Governmental Funds for interfund transfers have been eliminated from the Statement of Activities. A detailed description of the individual fund transfers that occurred during the year is provided subsequently in these notes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District reports a deferred charge on defeased debt resulting from the difference in the carrying value of refunded debt and its reacquisition price, which is amortized over the shorter of the life of the refunded or refunding debt. The School District reports deferred outflows of resources related to pensions and other postemployment benefits in the District-wide Statement of Net Position. The types of deferred outflows related to pensions and other postemployment benefits are described in Notes 10 and 11, respectively.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The types of deferred inflows of resources related to pensions and other postemployment benefits are described in Notes 10 and 11, respectively.

New Accounting Standards

The School District has adopted and implemented the following Statements of the Governmental Accounting Standards Board (GASB) that are applicable as of June 30, 2019:

- GASB has issued Statement No. 83, "Certain Asset Retirement Obligations," effective for the year ended June 30, 2019.
- GASB has issued Statement No. 88, "Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements," effective for the year ended June 30, 2019. This statement improves the information disclosed in notes to governmental financial statements related to debt, including direct borrowings and direct placements.

HOMER CENTRAL SCHOOL DISTRICT

***Note 1* Summary of Significant Accounting Policies - Continued**

Future Changes in Accounting Standards

- GASB has issued Statement No. 84, "Fiduciary Activities," effective for the year ending June 30, 2020. This statement improves guidance regarding identification of fiduciary activities for accounting and reporting purposes.
- GASB has issued Statement No. 87, "Leases," effective for the year ending June 30, 2021.
- GASB has issued Statement No. 89, "Accounting for Interest Cost Incurred Before the End of a Construction Period," effective for the year ending June 30, 2021.
- GASB has issued Statement No. 90, "Majority Equity Interests - An Amendment of GASB Statements No. 14 and No. 61," effective for the year ending June 30, 2020.
- GASB has issued Statement No. 91, "Conduit Debt Obligations," effective for the year ending June 30, 2022.

The School District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

***Note 2* Participation in BOCES**

During the year ended June 30, 2019, the School District's share of BOCES income amounted to \$1,878,468. The School District was billed \$5,139,270 for BOCES administration and program costs. Financial statements for the OCM BOCES are available from their business office at 110 Elwood Davis Road, Liverpool, NY 13088.

***Note 3* Cash and Cash Equivalents - Custodial Credit and Concentration of Credit Risk**

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. While the School District does not have a specific policy for custodial credit risk, State statutes govern the School District's investment policies, as discussed previously in these notes. GASB Statement No. 40 directs deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are either uncollateralized or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School District's name.

The School District's aggregate bank balances of \$15,476,492 are either insured or collateralized with securities held by the pledging financial institution in the School District's name.

Total	\$ 2,403,523	\$ 2,403,523	\$ 840,372	\$ 840,372

The School District typically transfers to and from the General Fund for the School District's share of expenditures for a Special Aid Fund project and from the General Fund and Capital Projects Fund to the Debt Service Fund for payment of long-term debt. The School District also transfers funds from the Capital Reserve in the General Fund to the Capital Projects Fund, as needed, to fund capital projects.

The School District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

Note 7 Short-term Debt

The School District may issue revenue anticipation notes (RANs) and tax anticipation notes (TANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund. The School District did not issue or redeem any RANs or TANs during the year.

The School District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which insufficient or no provision is made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued. The School District did not issue or redeem any budget notes during the year.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

Note 8 Long-term Debt - Continued

On October 1, 2010, the School District issued \$11,905,000 in general obligation bonds, with interest rates ranging between 3.0% and 4.0%. The School District issued the bonds to advance refund the \$11,990,000 of outstanding various general obligation bonds with interest rates ranging from 4.0% to 4.5%. The School District used the net proceeds along with other resources to purchase U.S. government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the bonds. As a result, the \$11,990,000 in bonds is considered defeased and the liability has been removed from the financial statements. The outstanding principal of the defeased bonds was \$2,305,000 at June 30, 2019.

On April 19, 2016, the School District issued \$8,830,000 in general obligation bonds, with interest rates ranging between 1.5% and 4.0%. The School District issued the bonds to advance refund the \$8,830,000 of outstanding various general obligation bonds with interest rates ranging from 3.5 % to 4.0%. The School District used the net proceeds along with other resources to purchase U.S. government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the bonds. As a result, the \$8,830,000 in bonds is considered defeased and the liability has been removed from the financial statements. The outstanding principal of the defeased bonds was \$6,575,000 at June 30, 2019.

A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred charges on defeased debt are summarized as follows:

Governmental Activities	Beginning Balance	Issued	Redeemed	Ending Balance	Amounts Due Within One Year
Deferred Charges on Defeased Debt	\$ 621,875	\$ -	\$ (148,316)	\$ 473,559	\$ 136,245

Note 9 Compensated Absences

Compensated absences represent the value of the earned and unused portion of the liability of compensated absences. This liability is liquidated from the General and School Lunch Funds.

Compensated absences balances and activity are summarized as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Compensated Absences	\$ 1,687,173	\$ 436,182	\$ -	\$ 2,123,355	\$ 50,011

Changes to long-term compensated absences are reported net, as it is impractical to individually determine the amount of additions and deletions during the fiscal year.

Note 10 **Pension Obligations - New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement (TRS) (the Systems)**

Plan Description and Benefits Provided Teachers' Retirement System (TRS)(System)

The School District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer public employee retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York (RSSL). The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a state statute. Additional information regarding the System, may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, New York 12211-2395 or by referring to the NYSTRS Comprehensive Annual Financial report which can be found on the System's website at www.nystrs.org.

Tier 3 and Tier 4 members are required by law to contribute 3% of salary to the System. Effective October 2000, contributions were eliminated for Tier 3 and 4 members with 10 or more years of service or membership. Effective January 1, 2010, Tier 5 members are required by law to contribute 3.5% of salary throughout their active membership. Effective April 1, 2012, Tier 6 members are required by law to contribute between 3% and 6% of salary throughout their active membership in accordance with a salary based upon salary earned. Pursuant to Article 14 and Article 15 of the RSSL, those member contributions are used to help fund the benefits provided by the System. However, if a member dies or leaves covered employment with less than 5 years of credited service for Tiers 3 and 4, or 10 years of credited service for Tiers 5 and 6, the member contributions with interest calculated at 5% per annum are refunded to the employee or designated beneficiary. Eligible Tier 1 and Tier 2 members may make member contributions under certain conditions pursuant to the provisions of Article 11 of the Education Law and Article 11 of the RSSL. Upon termination of membership, such accumulated member contributions are refunded. At retirement, such accumulated member contributions can be withdrawn or are paid as a life annuity.

Plan Description and Benefits Provided Employees' Retirement System (ERS)(System)

The School District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the RSSL. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The School District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, New York 12244.

Generally, Tier 3, 4, and 5 members must contribute 3% of their salary to the System. As a result of Article 19 of the RSSL, eligible Tier 3 and 4 employees, with a membership date on or after July 27, 1973, who have ten or more years of membership or credited service with the System, are not required to contribute. Members cannot be required to begin making contributions or to make increased contributions beyond what was required when membership began. For Tier 6 members, the contribution rate varies from 3% to 6% depending on salary. Generally, Tier 5 and 6 members are required to contribute for all years of service.

Summary of Significant Accounting Policies

The Systems' financial statements from which the Systems' fiduciary respective net position is determined are prepared using the accrual basis of accounting. System member contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. For detailed information on how investments are valued, please refer to the Systems' annual reports.

At June 30, 2019, the School District reported the following asset/liability for its proportionate share of the net pension asset/liability for each of the Systems. The net pension asset/liability was measured as of March 31, 2019 for ERS and June 30, 2018 for TRS. The total pension asset/liability used to calculate the net pension asset/liability was determined by an actuarial valuation. The School District's proportionate share of the net pension asset/liability was based on a projection of the School District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was derived from reports provided to the School District by the ERS and TRS Systems.

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date.

Significant actuarial assumptions used in the valuations were as follows:

	<u>ERS</u>	<u>TRS</u>
Measurement Date	March 31, 2019	June 30, 2018
Actuarial Valuation Date	April 1, 2018	June 30, 2017

Salary Increases	4.2%	1.9% - 4.7%
Cost of Living Adjustments	1.3%	1.5%
Inflation Rate	2.5%	2.5%

For ERS, annuitant mortality rates are based on April 1, 2010 - March 31, 2015 System's experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2014. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP 2014, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2018 valuation are based on the results of an actuarial experience study for the period April 1, 2010 - March 31, 2015. For TRS, the actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2009 - June 30, 2014.

Actuarial Assumptions - Continued

For ERS, the long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. For TRS, the long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expect future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized as follows:

Discount Rate

The discount rate used to calculate the total pension asset/liability was 7.0% for ERS and 7.25% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and contributions from employers will be made at statutorily required rates, actuarially. Based on the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset/liability.

Sensitivity of the Proportionate Share of the Net Pension Asset/Liability to the Discount Rate Assumption

The following presents the School District's proportionate share of the net pension asset/liability calculated using the discount rate of 7.0% for ERS and 7.25% for TRS, as well as what the School District's proportionate share of the net pension asset/liability would be if it were calculated using a discount rate that is 1-percentage point lower or higher than the current rate:

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Employee contributions are remitted monthly. Accrued retirement contributions as of June 30, 2019 represent the projected employer contribution for the period of April 1, 2019 through June 30, 2019 based on estimated ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2019 amounted to \$111,903.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2019 are paid to the System in September, October, and November 2019 through a state aid intercept. Accrued retirement contributions as of June 30, 2019 represent employee and employer contributions for the fiscal year ended June 30, 2019 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2019 amounted to \$1,727,108.

General Information about the OPEB Plan

Plan Description - The School District's defined OPEB Plan (Plan) provides medical benefits to eligible retirees and their spouses in accordance with various employment contracts. The plan is a single employer defined benefit healthcare plan administered by the School District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the School Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue separate financial statements, because there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

Benefits Provided - The School District provides healthcare benefits for eligible retirees and their spouses. Benefit terms are dependent of which contract each employee falls under. The specifics of each contract are on file at the School District offices and are available upon request.

Note 11 **Postemployment Benefits Other Than Pensions (OPEB)**

Total OPEB Liability

The School District's total OPEB liability of \$45,804,821 was measured as of June 30, 2019, and was determined by an actuarial valuation as of June 30, 2018.

Actuarial Assumptions and Other Inputs - The total OPEB liability as of June 30, 2019 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Long-Term Bond Rate:	3.51%
Single Discount Rate	3.51%
Salary Scale	Varied by Years of Service and Retirement System
Rate of Inflation	3.00%
Healthcare Cost Trend Rates	5.50% for 2018, Decreasing to an Ultimate Rate of 3.84% by 2075

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

The actuarial assumptions used in the June 30, 2018 valuation were based on the following:

- Mortality rates were based on Pub-2010 Teachers and General Employees Headcount-Weighted table projected fully generationally using MP-2018.
- Termination and retirement rates were based on NYS ERS assumptions first adopted on April 1, 2015 and NYS TRS assumptions first adopted on June 30, 2015.
- Medical trend rates are based on the 2018 Getzen model with initial trend rate of 5.50% decreasing gradually to an ultimate rate of 3.84% in 2075.
- Dental trend rates are based on an initial rate of 4.50% decreasing by 0.25% annually to an ultimate rate of 3.00%.
- Actual spousal health coverage election was used for existing retirees.

The actuarial assumptions used in the June 30, 2018 valuation were consistent with the requirements of GASB Statement No. 75 and Actuarial Standards of Practice (ASOPs).

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

***Note 12* Commitments and Contingencies**

Risk Financing and Related Insurance - General Information

The School District is exposed to various risks of loss related to, but not limited to, torts; theft of, damage to and destruction of assets; injuries to employees; errors and omissions; natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

Risk Financing and Related Insurance - Health Insurance

The School District incurs costs related to an employee health insurance plan (Plan) sponsored by BOCES and its component districts. The Plan's objectives are to formulate, develop and administer a program of insurance to obtain lower costs for that coverage and to develop a comprehensive loss control program.

School districts joining the Plan must remain members for a minimum of one year; a member school district may withdraw from the Plan after that time by providing notice to the consortium prior to May 1, immediately preceding the commencement of the next school year. Plan members include 26 school districts, with the School District bearing a proportionate share of the Plan's assets and claims liabilities. Plan members are subject to a supplemental assessment in the event of deficiencies. If the Plan's assets were to be exhausted, members would be responsible for the Plan's liabilities.

The Plan uses a reinsurance agreement to reduce its exposure to large losses on insured events. Reinsurance permits recovery of a portion of losses from the reinsurer, although it does not discharge the liability of the Plan as direct insurer of the risks reinsured.

The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled and claims that have been incurred but not reported. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

During the year ended June 30, 2019, the School District incurred premiums or contribution expenditures totaling \$5,483,235.

The Plan financial statements may be obtained from Central New York Health Insurance Trust, 6820 Thompson Road, PO Box 4754, Syracuse, NY 13221.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

Note 12 Commitments and Contingencies - Continued

Risk Financing and Related Insurance - Workers' Compensation

The School District is self-insured for workers' compensation claims. Judgments and claims are recorded when it is probable that a liability has been incurred and the claim amount can be reasonably estimated. As of June 30, 2019, the School District had reserved \$1,066,067 in the General Fund to fund any claims. Workers' compensation charges for the year ended June 30, 2019 were \$85,459.

Other Litigation

The School District is and may be a named party in certain litigations. The School District is being represented by legal counsel of the School District and insurance companies as applicable. In the opinion of School District officials and legal counsel, these claims are either adequately covered by insurance, will not result in material judgments against the School District, or will not be pursued and, accordingly, are not expected to have a material effect on the financial statements.

Other Items

The School District has received grants subject to audit by agencies of state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

Note 13 Lease Obligations

The School District utilizes operating leases for the use of transportation equipment. The terms, interest rate, and annual payments for each lease are summarized below:

	<u>Dated</u>	<u>Term</u>	<u>Interest Rate</u>	<u>Annual Payment</u>
2019 Lease	7/3/2018	5 years	2.75%	\$ 60,736

Note 16 Stewardship, Compliance and Accountability

Deficit Net Position

At June 30, 2019, the District-wide Statement of Net Position had an unrestricted deficit net position of \$45,365,203. This is primarily the result of the requirement to record other postemployment benefit liability with no requirement or mechanism to fund this liability. (See Note 11.) The deficit is not expected to be eliminated during the normal course of operations.

Deficit Unassigned Fund Balance

At June 30, 2019, the Capital Projects Fund had an unrestricted fund balance deficit of \$628,854. This deficit is expected to be eliminated with permanent financing at the completion of the respective projects.

Note 17 Tax Abatements

For the year ended June 30, 2019, property in the School District was subject to property tax abatements negotiated by the Cortland County Industrial Development Agency (CCIDA), and the Village of Homer (the Village).

CCIDA enters into PILOT agreements with businesses within Cortland County under New York State General Municipal Law 858. Economic development agreements entered into by CCIDA can include the abatement of county, local, and school district taxes. In this case, negotiated abatements have resulted in reductions of property taxes, which CCIDA administers as a temporary reduction in the assessed value of the property involved. The abatement agreements generally stipulate a percentage reduction of property taxes, but sometimes stipulate a dollar value reduction in lieu of a percentage reduction.

HOMER CENTRAL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

Note 17 Tax Abatements - Continued

The Village entered into a property tax abatement agreement (Act) with a local business under Chapter 535 of the 1971 Laws of New York State for the purpose of encouraging economic growth. Under the Act, localities may grant property tax abatements of up to 100% of a business' property tax bill for the purpose of attracting or retaining businesses within their jurisdictions. The abatements may be granted to any business located within or promising to relocate to the Village.

Information relevant to disclosure of the programs for the year ended June 30, 2019 is as follows:

Note 18 Reclassification

Certain amounts presented for the year ended June 30, 2018 have been reclassified to conform to the current year's presentation. Those reclassifications had no effect on the previously reported net position.

Note 19 Subsequent Events

Bus Leases

Subsequent to June 30, 2019, the School District entered into a lease agreement for the use of eight new school buses. The term of the agreement is 6 years and calls for five annual payments of \$152,089 with a balloon payment of \$257,000 in the sixth year.

Bond Issuance

At year end June 30, 2019, the School District was in the process of converting its existing bond anticipation note (BAN) into permanent financing through the issuance of a 15-year bond. The BAN was converted in July 2019 and the new bond calls for fixed annual payments ranging between \$20,000 and \$60,000 with biannual interest ranging from 3% to 5% over the term of the bond.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

JUNE 30, 2019

Note 1 **Budget Basis of Accounting**

Except as indicated below, budgets are adopted annually on a basis consistent with accounting principles generally accepted in the United States of America. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior year. Encumbrances are not considered a disbursement in the financial plan or an expenditure in accounting principles generally accepted in the U.S. (GAAP) based financial statements. Encumbrances reserve a portion of the applicable appropriation for purchase orders, contracts, and other commitments not expended at year-end, thereby ensuring that appropriations are not exceeded.

Annual legal budgets are not adopted for the Special Revenue Funds (Special Aid and School Lunch). Budgetary controls for the Special Aid Fund are established in accordance with applicable grant agreements. In addition, special aid funds may cover a period other than the School District's fiscal year. Budgetary controls for the School Lunch are established based on prior performance and anticipated future activity.

Note 2 **Budget Policies**

Budget policies are as follows:

- An annual operating budget is maintained for the General Fund, which is a Governmental Fund.
- The School District Administration prepares a proposed budget for approval by the Board of Education for the fiscal year commencing the following July 1. The proposed budget includes proposed expenditures and the proposed means of financing. The Board must complete the proposed budget at least seven days prior to the public hearing at which it will be presented to the voters.
- The School District presents the proposed budget at a public hearing, conducted to obtain voters comments, seven to 14 days prior to the date of the School District's annual meeting and election. The School District's annual election must be held on the third Tuesday of May.
- Annual budgets adopted represent the legal limit on expenditures for that period. At the end of each year unexpended, unencumbered appropriations lapse. Encumbered appropriations do not lapse and are carried forward.
- Expenditures may not legally exceed appropriations at the fund level.
- All modifications of the budget must be approved by the Board of Education.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

JUNE 30, 2019

Note 2 Budget Policies - Continued

- The Board may approve supplemental appropriations, subject to legal restrictions, during the fiscal year where additional revenues or expenditures not involved in the original adopted budget are identified. The following supplemental appropriations occurred during the year:

Adopted Budget	\$ 42,055,168
Prior Year's Encumbrances	232,740
Original Budget	<u>42,287,908</u>
Final Budget	<u>\$ 42,287,908</u>

Note 3 Reconciliation of the General Fund Budget Basis to GAAP

No adjustment is necessary to convert the General Fund's excess of expenditures and other uses over revenues and other sources on the GAAP basis to the budget basis as encumbrances are presented in a separate column and are not included in the actual results at June 30, 2019.

Note 4 Schedule of Changes in the School District's Total OPEB Liability and Related Ratios

Changes in Benefit Terms

There were no significant legislative changes in benefits.

Changes of Assumptions

There were changes in the economic (investment rate of return, inflation, COLA, and salary scales) and demographic (pensioner mortality and active member decrements) assumptions used in the April 1, 2018 actuarial valuation.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

The April 1, 2018 actuarial valuation determines the employer rates for contributions payable in fiscal year 2019. The following actuarial methods and assumptions were used:

Actuarial Cost Method	The System is funded using the Aggregate Cost Method. All unfunded actuarial liabilities are evenly amortized (as a percentage of projected pay) over the remaining worker lifetimes of the valuation cohort.
Asset Valuation Period	5-year level smoothing of the difference between the actual gain and the expected gain using the assumed investment rate of return.
Inflation	2.5%
Salary Scale	3.8% in ERS, indexed by service.
Investment Rate of Return	7.0% compounded annually, net of investment expenses, including inflation.
Cost of Living Adjustments	1.3% annually.

NYSTRS

Changes in Benefit Terms

Chapter 504 of the Laws of 2009 created a new tier of membership (Tier 5) for members with a date of membership on or after January 1, 2010. The Tier 5 benefit structure represents a reduction in benefits from those of prior tiers and an increase in the required employee contribution rate. The Tier 5 benefit changes were first included in the 2010 actuarial valuation. Chapter 18 of the Laws of 2012 created a new tier of membership (Tier 6) for members who joined on or after April 1, 2012. The Tier 6 benefit formula is slightly less generous than that of Tier 5, and the required employee contribution rate was increased further. The Tier 6 benefit changes were first included in the 2012 actuarial valuation.

Changes of Assumptions

Actuarial assumptions are revised periodically to more closely reflect actual, as well as anticipated future experience. The actuarial assumptions used in the actuarial valuations prior to 2011 were adopted by the Retirement Board on October 26, 2006. Revised assumptions were adopted by the Retirement Board on October 27, 2011 and first used in the 2011 actuarial valuation. The actuarial assumptions were revised again in 2015. These assumptions were adopted by the Retirement Board on October 29, 2015 and first used in the 2015 actuarial valuation.

The System's valuation rate of interest of 7.5% is effective with the 2015 actuarial valuation. Prior to the 2015 actuarial valuation, the System's valuation rate of interest assumption was 8.0%.

Prior to the 2007 actuarial valuation, the asset valuation method used was a five-year market smoothing for equities, real estate, and alternative investments, based upon book values. The asset valuation method was changed effective with the 2007 actuarial valuation to use a five-year phased in deferred recognition, at a rate of 20% per year, of each year's realized and unrealized appreciation in excess of (or less than) an assumed inflationary gain of 3.0%. The asset valuation method was changed again effective with the 2015 actuarial valuation to recognize each year's net investment income/ loss in excess of (or less than) 7.5% at a rate of 20% per year, until fully recognized after five years. For fiscal years ending prior to June 30, 2015, realized and unrealized appreciation in excess of (or less than) the assumed inflationary rate of 3.0% is recognized at a rate of 20% per year, until fully recognized after five years.

Prior to the 2011 actuarial valuation, COLAs were projected to increase at a rate of 1.75% annually. Effective with the 2011 actuarial valuation, COLAs were projected to increase at a rate of 1.625% annually. Effective with the 2015 actuarial valuation, COLAs are projected to increase at a rate of 1.50% annually.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Education
Homer Central School District
Homer, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Homer Central School District (the School District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated October 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY UNIFORM GUIDANCE**

Board of Education
Homer Central School District
Homer, New York

Report on Compliance for Each Major Federal Program

We have audited Homer Central School District's (the School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2019. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

HOMER CENTRAL SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2019

Note 1 **Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs administered by the School District, an entity as defined in Note 1 to the School District's basic financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through from other government agencies, are included on the Schedule of Expenditures of Federal Awards.

Note 2 **Basis of Accounting**

The basis of accounting varies by Federal program consistent with the underlying regulations pertaining to each program. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in preparation of the financial statements.

Note 3 **Indirect Costs**

Indirect costs are included in the reported expenditures to the extent they are included in the federal financial reports used as the source for the data presented. The School District has elected not to use the 10% de minimis indirect cost rate allowed under Uniform Guidance.

Note 4 **Matching Costs**

Matching costs, i.e., the School District's share of certain program costs, are not included in the reported expenditures.

Note 5 **Non-Monetary Federal Program**

The School District is the recipient of a federal award program that does not result in cash receipts or disbursements termed a "non-monetary program." During the year ended June 30, 2019, the School District received \$61,862 worth of commodities under the National School Lunch Program (CFDA #10.555).

Note 6 **Other Disclosures**

No insurance is carried specifically to cover equipment purchased with federal funds. Any equipment purchased with federal funds has only a nominal value, and is covered by the School District's casualty insurance policies. There were no loans or loan guarantees outstanding at year end. No amounts were provided to subrecipients.
